

How to build a racing car by Fran Scott

I loved reading this book, which shows you how to build your own moving race car from household objects and gives you a step-by-step guide. Best of all, it's all based on science!

Take your place at the starting gate and fire up your engine: it's time to build your very own racing car! Join presenter and maker Fran Scott for a crash course in racing engineering, then use your new-found skills to build your own awesome air-powered machine using household objects. From the chassis to the engine, discover the science behind Formula One in this perfect project for budding young engineers. So what are you waiting for? 3, 2, 1 ... let's race!
